

Dear Dr Harris,

I am writing this small note to THANK YOU for your major contribution in the process of treating my husband,

It has been two months since he underwent surgery, and he seems to be recovering successfully, within reason.

I appreciate very much your effort to be part of the surgical procedure. It meant the world to my husband and our family.

God bless you ALWAYS!!!

I'm truly grateful.

Please continue to be the great doctor & human being you are.

Thank you!
